About This Game

It is the year 1830, and a young governess named Ester has just received a letter that will change her life forever.

The message from her aunt tells Ester that her parents, whom she never met, left her an inheritance – a mansion in London. But when she goes there, it turns out that the residence is abandoned, run-down, and haunted.

When she explores the mansion, slowly learning her family's secrets, she discovers that for many centuries, members of her family have been investigating the phenomenon of time travel. Soon Ester finds a strange object that confirms the extraordinary legacy of the Ambrose family. This is how her exciting journey, which will lead her to places – and times - she had previously only seen in dreams, begins.

During her adventure across time and space, she will discover forgotten artifacts, meet extraordinary beings, and experience supernatural events. Trying to unravel the secrets of her heritage, Ester grows ever more entangled in an ancient struggle between the wizard Merlin and his rival, Viviana.

Will the young governess change the course of history and solve her family's ancient mystery?

Features

- A portable time machine – change the history according to your will!
- 21 diverse mini-games and 16 hidden-object scenes
- 52 beautiful, hand-painted locations
- Time manipulation puzzles
- 7 intriguing heroes, each with their own secrets
- Possibility to re-play 9 mini-games and 16 hidden-object scenes
- Additional second adventure
- Game world encyclopedia
- Unique wallpapers from the game (Steam exclusive)

Title: Time Mysteries 2: The Ancient Spectres

Genre: Casual

Developer:

Artifex Mundi

Publisher:

Artifex Mundi

Release Date: 4 Nov, 2011

a09c17d780

Minimum:

OS: Windows XP, Windows Vista, Windows 7, Windows 8

Processor: 1.5 GHz

Memory: 512 MB RAM

Graphics: 128 MB VRAM

DirectX: Version 9.0

Storage: 1 GB available space

English, French, German, Japanese, Korean, Polish, Russian, Simplified Chinese

The good:

If you like HO puzzles, there are lots of them! Also, the story is reasonably interesting, as well as being a direct lead-in to Time Mysteries 3. Switching between times and altering the past/future is fun and the mechanic is well-conceived without being over-thought (best not to, with time travel!). The music is slightly repetitive, but quite good, and the overall feel of the game is nicely atmospheric (and appropriately creepy in places).

The less good:

The puzzles are decent but have no explanations, and are occasionally... less than intuitive. I dislike spending more time figuring out what the puzzle *is* than I spend solving it. On the other hand, kudos for immersion, since I suppose the protagonist has to guess as she goes along as well!

The least good, which is to say the bad:

There were a handful of places where the use of, or lack of, plurals was very confusing. Translations were generally pretty good, but not quite good enough for two solid thumbs up. A ladle isn't a spoon, and looking for "cherries" is different than looking for a (single) cherry (sounds minor, but there were just a few too many). I'd like to offer my services to Artifex Mundi as a proofreader.

That said, the REAL problem was in a HO scene where you open three chests (with keys) the first time you are there. When you return, the chests are still open (as they should be, since there is no random box-closer ghost). Unfortunately, there are objects behind the lids of the boxes, and the game doesn't handle that properly. I spent a very long time looking for a card that literally could not be seen. Eventually, the potential problem dawned on me and I started randomly clicking the open lids. Poof! Suddenly my last card appeared.

Final note: this is a decent game, it just needed a wee bit more care. That, and a little less pixel-hunting on a few of the HO scenes. The graphics quality is a big improvement over the first game (we won't talk about the Squidgy Head Faces thing that happened in Time Mysteries 1, because it just has to be seen to be believed). Too much aggravation with the HO scenes, but well worth buying on sale in my opinion.
